⭐ Arena Champion: Ideogram 3.0

Inaugural Key Finding

Photorealism is a solved commodity; Indic typography is the true differentiator. FLUX1.1 [pro] led in visual textures (4.68/5) but collapsed to 2.21/5 on Devanagari due to "pseudo-Indic" glyph hallucinations. Ideogram 3.0 dominated the Elo leaderboard (1142) with flawless Devanagari ligatures.
